

HIGHLIGHTS

Legacy archives create silent cost and compliance risks

Inaction blocks cloud strategy, increases regulatory exposure

Fast, disruption-free archive migration

CHOOSING ULTIMATE MIGRATOR

Ultimate Migrator is committed to delivering software that works. We help you move messaging data between platforms quickly, reliably and securely. We are asked to migrate some of the World's most complex messaging environments by some of the largest global organisations including banks and governments.

With a highly technical and business-aware team, Ultimate Migrator is focused on simplifying this notoriously painful process and providing a straight forward solution.

Ultimate Migrator provides a cost effective service that has minimum impact on users and reduces the demands on internal IT staff and the support infrastructure.

The EU Data Act is here. Here's how MSPs, MSSPs, and archive vendors can turn it into an opportunity.

New regulation strengthens your clients' right to migrate. And your ability to help them do it.

The EU Data Act (Regulation 2023/2854) came into force on 12 September 2025, and it has reshaped how data is accessed, moved, and retained, especially in cloud-based services.

It's designed to break down vendor lock-in and make it easier for businesses to extract and move their data between providers. That includes hosted email archive platforms, which are often the most difficult and expensive systems to escape.

For MSPs and integrators, this is a turning point

We provide a fully managed archive migration platform that MSPs can:

- ✓ White-label as their own solution
- ✓ Resell as part of a broader Microsoft 365 or security project
- ✓ Bundle with SEG switching, cloud onboarding or compliance audits
- ✓ Deliver with zero in-house tooling or specialist staff

You keep the client relationship. We power the migration behind the scenes.

What the EU Data Act guarantees

Clients will need to:

- Exit archive platforms they're locked into
- Justify ongoing spend on outdated systems
- Align with regulators by proving data is portable and accessible
- Consolidate archives into M365/Google Workspace for retention and search

With Ultimate Migrator in your toolkit, you can:

- Win more Microsoft 365 migration and security projects

- Add compliance value without additional headcount
- Turn archive migration into a high-margin service
- Proactively approach clients with a solution tied to real regulatory deadlines

Ready to act?

The EU Data Act applies from September 2025. But the opportunity to position yourself as the expert starts now.

Talk to us about our white-label partner programme and help your clients take back control of their archives.
